LAWN EDGING

DESIGNER

Most edging is made of high density polyethylene.

The DCN edging is made of a special blend including recycled and virgin materials, which gives it more flexibility, thus facilitating the installation process.

Our lawn edging is rolled in a cone shape for great shelf stackability.

We reserve the right to alter colours without notice.
Colours on actual products may differ.

Made with recyclable and non-toxic thermoplastic.

DCN products are made of a lightweight thermoplastic material.

All our products are durable. They are U.V. protected to resist fading and cracking from the sun.

Shock resistant.

Built in water reservoir promotes healthier plants without the need of constant watering.

Ideal for growing herbs, vegetables and fruits.

New Product, New Colour.

Product supplied with a plug for indoor use and perforated cap for outdoor use.
